Bolgiano New "Glory" Tomato.

Bolgiano's "Glory" Tomato

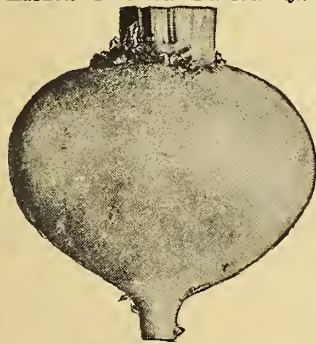

Outyields and outsells any Tomato on the market. The yield of "Glory" Tomato is marvelous. Produces at every joint large clusters of good size, smooth, firm, beautifully shaped fruits, uniform in shape, color and size. At times the vines are so full that they can hardly hold all the fruit that they produce. They ripen evenly and color up well. Keep vigorous and green until frost and are then full of fruit. Pkt. 50c. Oz. \$2.00. ¼ Lb. \$6.50. Lb. \$25.00.

Giant Stringless Green Pod Bean.

Giant Stringless Green Pod Beans

This is a great improvement on the old-time popular favorite Valentine Bean. The pods are fully one-third longer, averaging 5 to 6 inches in length; absolutely stringless, very crisp, round, full and fleshy. It is enormously productive, its handsome pods being ready for market a few days earlier than the old Valentine. We confidently recommend it either for the home garden, canning or as a profitable variety to grow for market. Pkt. 10c. Pt. 25c. Qt. 45c. Pk. \$3.25. Bu. \$12.50.

Bolgiano's
New Early Spring Beet

Bolgiano's New 'Early Spring' Beet

It is the first Beet in market, were it commands the fancy prices. Most perfect in shape and beautiful deep red color. It is much earlier maturing than Crosby's Egyptian and is of a much finer grain. Has a very small tap root, also top not being quite as large as Crosby's Egyptian. Even in maturing, that is, all the Beets can be pulled one week after you start in pulling. Can be sown under glass and transplanted outdoors or sown in the open field and will mature much earlier than Crosby's Egyptian. Seed is very scarce. It will pay you handsomely to give it a trial. Pkt. 10c. Oz. 15c. ¼ Lb. 50c. Lb. \$1.50. Postpaid.

Bolgiano's
New "Square-Deal" Cabbage

Bolgiano's New "Square-Deal" Cabbage

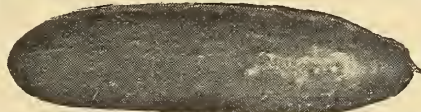

Without a single exception, Bolgiano's New "Square-Deal" Cabbage is the Biggest Money Making Cabbage ever offered the American Trucker. This is a strong assertion—at least 500,000 people will read it, so you can readily see we could not afford to make such a statement unless we were sure of our ground. We have seen ten-acre fields without a single irregular head. The uniform heads are of excellent size for shipping. The color is a fine fresh green and is retained during long shipments. The heads are solid and compact with very few outer leaves. For a fine Solid, Tender, Uniform, Early Flat Cabbage, Bolgiano's New "Square-Deal" Cabbage challenges the world. Pkt. 10c. Oz. 50c. ¼ Lb. \$1.40. Lb. \$5.00.

"John Baer" Tomato

produces perfect, solid, high crown, beautiful, brilliant red shipping Tomatoes in 30 days from strong plants grown in veneer bands or from potted plants if the roots are undisturbed when set out. John Baer Tomato produces an enormous crop of Tomatoes, from 50 to 100 fruit to each plant. Entirely free from core and ripens evenly right up to the stem. No misshapen fruit, mild delicious flavor, almost seedless. A perfect shipper. Pkts. 10c, 25c and 50c. Oz. 65c. ¼ Lb. \$2.25. Lb. \$8.00. Postpaid. We offer veneer hands at 75c per 100.

"John Baer" Tomato
The Earliest and Best
Tomato on Earth.

BOLGIANO'S NEW "CRYSTAL SPRINGS"
CUCUMBER

Extra early, heaviest yielding, continuous bearer. Attractive rich, glossy, deep green color. Deep green to the very tips. Mildew-proof, never turns yellow. Perfect in shape, color and size. No misshapen fruits or culls. Flesh firm, fine grained and tender. The quality is superb. Most refreshing and delightful flavor. Entirely free from bitterness. Very few seed. Fine for slicing. The ideal Cucumber for either shipping, market or home use. Pkt. 10c. Oz. 20c. ¼ Lb. 60c. Lb. \$2.00. Postpaid.

Bolgiano's "Big Crop" Tomato Seed PRODUCES THE Best Tomatoes that Grow

Bolgiano's "Big Crop" Tomato Seed is saved from fully developed ripe tomatoes grown for seed only, entirely free from blight, dry rot and other diseases. A seed well matured by sunshine and showers, nature's way, will produce a heartier, more vigorous plant than the seed that is picked partially ripe so that the tomato pulp can be saved for canning and packing purposes.

We grow our tomato seed in the far Northern Climate to keep down blight and other diseases and to keep the tomatoes solid and meaty. At our growing station we have no extreme weather conditions during the growing season; there is a complete absence of humidity. This has proven very favorable to our success in growing such perfect fruit for seed.

A full year's work often depends upon the seed that is used. Take no chances by buying cheap seed; always purchase the best seed obtainable and your results will more than cover the extra cost that you may have to pay.

Years of experience have taught us many important tomato facts; if you desire to grow Big Crops of Tomatoes, it will pay you to profit by our long years of experience and use Bolgiano's "Big Crop" Seed. Send us your order at once. We can now fill your order with our highest quality tomato seed. We only supply seed of our own growing; when this is exhausted we cannot fill an order. If you put off ordering, you may then be too late.

Bolgiano "Glory" Tomato Best in Florida.

On Sept. 7th, 1918, C. J. Rust, of Marion Co., Fla., wrote: "We planted several varieties of tomatoes and all were given equal chances, but the New Glory did best of all. Best in many ways, best producer by far, prettiest fruit, being the smoothest, most uniform in size and shape and ripened thoroughly to the stem. They had fine flavor and solid, firm meat."

20c Per Bushel More for John Baers in Pennsylvania.
On Oct. 12, 1918, H. C. Hartenback, of Beaver Co., Pa., wrote: "In regard to the John Baer Tomato Seed that I purchased from you last January, I will say that I cannot praise them too highly. First of all, John Baer is the best quality tomato we have ever grown; second, it stands the drought without curling a leaf; third, it is an excellent yielder; fourth, they sell better on the market than any other tomato. We got 20c more per bushel than anybody else this summer. Many of our neighbors will be wanting to purchase John Baer tomato seed from you next Spring."

\$490 Clear Off Half Acre of Glories.
On Sept. 25th, 1918, Mr. T. R. Caruthers, of Sumter Co., Fla., wrote: "I beg to state that the New Glory Tomato Seed I bought from you last January brought splendid results. I planted the seed the 12th of February, but the ground was still chilled from the cool weather we had and they did not start off like I would have liked, but I had them on a medium heavy soil and they came out quickly, and by the first of May I had sold \$260.00 worth off the half acre. I went in there the 12th of May and got 90 more carriers, which brought \$285.00, the price having dropped meanwhile, but all told, fertilizer, seeds, labor and other incidentals, I cleared \$490.00."

J. Bolgiano & Son,

Baltimore, Md.

Gentlemen: We beg to state that we consider the "Greater Baltimore" Tomato by far to be the best canning tomato we have ever packed. The yield per acre is better and the quality is good as could be wished for canning purposes. The season was very bad last year and yet we had some growers who delivered over 200 bushels per acre of the above fruit.

They Are, Indeed, A Wonder.

On July 30, Mr. John F. Gore, of Hillsborough Co., Fla., wrote: "In reference to Bolgiano's Mighty Nice Bean Seed, will say they are all you claim for them. They sold on the market as well as any other bean and produced more than any bean I ever planted. They are, indeed, a wonder. Will send in my order later for early spring planting."

Recommend Them to All Gardeners.

On August 8, Mrs. R. E. Ellison, of Fairfield County, S. C., wrote: "The Mighty Nice Bean Seed bought of you last spring gave great satisfaction, and I take pleasure in recommending them to all gardeners. Notwithstanding a very hot, dry spell, we had, they bore profusely. It is a nice flavored bean and very tender."

Big Crop, Even On Poor Ground.

On July 31, Mr. Louis A. Kunz, of Nassau Co., New York, wrote: "I wish to say, the Mighty Nice Bean Seed which we bought from you turned out fine. We planted them in a very poor piece of ground this year. It was a new piece of garden ground, but in spite of this I wish to say they were very good and we are still picking them at this date. I planted some of them for some of my neighbors, and they also turned out very fine. Last year we bought the same kind from you, and they were the best we ever had. We picked from the very beginning of the season right up until frost, and they at that time still had a number of blossoms when the frost hit them."

Still Best After Seven Years' Trial.

On June 19 Mr. E. G. Harper, of Tangipahoa Co., La., wrote: "The Pride of the Market Carrot which you supplied me with last October came up fine. In spite of the weather conditions last fall were very bad for carrots to germinate, but my seed came up when my neighbors failed. Now I have been planting your Pride of the Market Carrots for seven years, and find them better than other carrots I ever planted."

All That We Want in a Cucumber.

On October 1, 1918, W. J. Kirkham Co., of New Hanover County, North Carolina, wrote: "We have been handling Bolgiano's Early Fortune Cucumber 15 years, and this section of the country is well pleased with them, and want no other kind. It is an excellent cucumber, perfect in shape and color, and a good shipper. They are all that we want in a cucumber."

Early Fortune Entirely Satisfactory.

On September 23rd, 1918, E. G. Martin, of Marion Co., Fla., wrote: "The Early Fortune Cucumber Seed I bought of you last Spring were entirely satisfactory. The weather conditions were very poor, we had no rain for four weeks after they were planted, and I shipped cukes, fresh and crisp, after two-thirds the leaves were shedded off the vines. I got good prices all season and expect to plant twice as many next season."

The Best All-Around Cucumber.

On Sept. 28th, 1918, O. E. Woodard, of Lockport, Orange Co., Fla., wrote: "In reference to Bolgiano's Early Fortune Cucumber, wish to say that I will plant no other, as they give perfect satisfaction, and I consider them the best all-around cucumber for the shipper. The weather conditions were not very favorable after planting, it was very dry, but the Early Fortunes did splendidly. They hold up longer than any other cucumber on the market."

Good Crop in a Bad Season

On Oct. 29th, 1918, Alec. J. Michael, of Salem Co., New Jersey, wrote: "We planted Bolgiano's Cream and Honey Sugar Corn on the 15th day of May, and it was at its best in the middle of July. The weather was very dry for about 10 days after it was planted, then it was wet until it began to tassel, then there was a month of dry weather just as it was coming into ears. Under these conditions it produced the best crop of sweet corn I have ever grown."

On Sept. 3, 1918, J. A. Stitche, of Dillon Co., S. C., wrote: "The Junior Rocky Ford Cantaloupe Seed that I purchased from you last Spring did extremely well. The weather was dry, but they made a very good crop of delicious, sweet fruit. Later, when we had seasonable rains, the vines continued to grow and made a second crop."

Jr. Rocky Ford Always on Top.

On July 13, 1918, W. Gaskins, of Marion County, Fla., wrote: "Please allow me to say a word about your Junior Rocky Ford Cantaloupe from last season. Although the weather conditions were much against the crop, the Jr. Rocky Ford came out on top. You can reserve my order for the 1919 crop."

Did Honor to Their Name.

On Sept. 13, 1918, Mrs. Albert Johnson, of Shepherds-town, Jefferson Co., W. Va., wrote: "From 4 pkgs. of your Prizetaker Onion Seed which I planted last Spring I raised 5 bushels of very fine, large Onions, which was considered a good yield, as this was a very poor season for onions, owing to the hot, dry spell in May, which nearly ruined the crops, but my Prizetakers came through it all right, and did honor to the name they bear, for they surely are prizetakers. I will never plant any other kind of onion seed but your Mammoth Prizetaker, and will surely recommend them to anyone who has never used them."

D. C. Bull & Bro., Accomac Co., writes: "Enclosed find check \$183.90. We wish to state the Onion Sets we purchased from you have given entire satisfaction to all our customers. Thanking you for past favors and wishing you success."

Mr. A. A. Harris, of York County, Va., writes: "Yours of the 13th to hand, and in reply will say as I have been handling your Yellow Danver Onion Sets for sometime and my customers seem to be so well pleased with them I will accept your offer."

Onions Save Soldiers' Lives

Extract from South African Gardening and Country Life

"During the coming season we are going to ask our readers to grow larger quantities of Onions! The object of the request is to increase the quantities of this vegetable, so that more may be available to send to the troops in hot, trying climates."

A journalist friend, who called on us a few days ago when home on a few weeks' sick leave, told us that nothing under God's sun was of so much benefit to sick men. He is in the Medical Corps, and he says nothing would have such a stimulant effect as an Onion; in fact, he vows that he has seen an Onion save a man's life, on more than one occasion.

Carrots are good, but not to be compared with an Onion. The Onion can be sent up fresh, i. e., it need not be dried or dehydrated. It is alive, and it gives life! We feel sure readers will welcome any suggestion whereby they may help to alleviate—if only in a small way—the hardships of our fighting men. They want Onions and the first step to getting Onions to them is to grow the bulbs to send."

Mr. E. I. Faidley, of Sullivan Co., Tenn., wrote: "Three bushels of Yellow Onion Sets I purchased from you last February, I sold \$60.00 worth of bunch Onions from them. How is that? They are the best I ever planted in my 11 years of experience in trucking, and in the future will plant nothing else."

Mr. Clarence E. Oskins, Edgemore, Del., writes: "I have sent you \$17.00 for seeds besides this one for plants, and have received all seeds in first-class condition. The 3 bu. of Yellow Onion Sets were the finest I ever bought. Thanking you for promptness in filling by orders."

First Class Selected Stock. Finest Hand Picked Samples. One quart will plant about 100 feet of drill. One and one-half to two bushels for an acre. Those Marked With a Star (*) are wrinkled marrows and unless otherwise stated should be sown thicker than the round Peas, and not until the ground has become warm, as they are more liable to rot. They are the finest flavored of all Peas.

Bolgiano's New "Early Bird" Peas.

Good Success With Wonder Workers.

On September 5th, 1918, Leon C. Skinner, of Franklin County, Mass., wrote: "We had good success with the Wonder Worker Peas, so good that we intend to plant them again next Spring. I think the weather conditions were fair, with rain enough, and the peas were of a fine quality. No one could ask for more delicious ones. We planted them alongside of some Early Dwarf Peas and thought they would mature much later, but they were only two days behind. We think these peas are the best we ever planted and everyone was taken with them."

\$3.00 Bu. for Early Birds from First to Last.

On Sept. 16th, 1918, I. E. Goldridge, of New London Co., Conn., wrote: "In regard to Early Bird Peas, I planted on March 25th, I picked Early Bird Peas June 17th. The Peas were as handsome as I ever sold. They brought \$3.80 per bushel from the first picking to the last."

Early Bird Peas Were Very Satisfactory.

On August 7, 1918, V. Leitch, of Calvert Co., Md., wrote: "The Early Bird Peas were very satisfactory. I found them early, prolific and fine flavored. The weather conditions, as far as I remember, were very good."

"Early Bird" Best Both for Taste and Large Crop.

On July 30, 1917, Mr. Clayton Gohn, of Cecil Co., Md., wrote: "The 'Early Bird' Peas that I ordered from you in March, I must say, were the best pea that could be planted, both for taste and for a large crop. The weather conditions were wet most all the time that the Peas were growing, but in spite of this they made an excellent crop. The pods are large and full of fine peas. I will plant them next year if nothing happens. They are certainly a good yielder."

"Early Bird" Away Ahead of Any Varieties.

On August 10, Mr. F. Davis, of Trumbull Co., Ohio, wrote: "Relative to Bolgiano's 'Early Bird' Peas, and my success in growing them, I would say that as an extra early good wrinkled pea they stand away ahead of any variety of the semi-dwarf habits which I have ever planted. We have had an ideal season for growing them, as it was cool and we had plenty of rain in our locality. They grew about two feet high, they gave an enormous crop, just as early as 'Alaskas' and other hard varieties. Hereafter I will plant them exclusively, as they are more easily taken care of than the tall varieties."

The great combined insecticide and fungicide. The loss caused by insects on fruit and truck crops in this country each year is over \$100,000,000.

The damage done by fungous diseases in this country each year is estimated to be fully as great as that done by insects.

Pyrox kills all leaf-chewing insects and at the same time protects the crop against all fungous diseases.

Pyrox is used for spraying fruit trees, potato and tomato vines, cucumbers, melons, celery, peppers, egg plants, squashes, cabbage, sweet potatoes, beans, asparagus, corn, shrubs and flowers. It is particularly valuable for tomatoes, invigorating the vine and killing the worms. It kills apple worms and potato bugs, codling moths and all other chewing insects, prevents fungous diseases such as apple scab, potato blight and bitter rot; it sticks to and protects the foliage in spite of heavy rains; it is smooth and fine, goes through the finest nozzle, thus going further and doing more effective work.

Pyrox keeps the foliage healthy and green throughout the growing season; gives it greater vigor, and enables your vegetable plants and fruit trees to produce to their very limit.

Since 1903 With Good Results.

On July 9, Mr. H. R. Sams, of the Oakridge Truck Farm, Beaufort Co., S. C., wrote: "The Scarlet Globe Radish Seed purchased from you in February were as bright scarlet and as fine shape as any I have ever planted. I planted the 200 pounds February 14th and gathered first three hundred baskets March 20. I have just written you for quotations on 300 pounds more. I have been planting your seeds since 1903 with good results."

Even in a Bad Season.

On July 19, Mr. John Clancy, of Jefferson Co., La., wrote: "The Scarlet Turnip White Tip Radish Seed I ordered from you last season was O. K. They were as pretty a radish as I have ever seen, despite the fact we had a very rainy season."

Thoroughly Convinced After Comparison.

On February 20, Mrs. Varina H. Horaback, of Kent Co., Del., wrote: "I am thoroughly convinced that Bolgiano's Tomato Seeds are superior to other dealers'. Two years ago I made the experiment. Before that my plants were not uniform. The field would have the same cultivation and treatment, but at intervals the plants would be small and many of them would be very small producers. I changed my patronage to you. Since then my plants have been all that I could wish for, a strong and even growth and very productive."
